Subject: Re: TY Lin Reunion
Sent: Sunday, December 31, 2006 2:01 PM

Ken—First, pls forgive me for not replying earlier regarding the TYL reunion. However, a number of personal schedule items didn't get resolved until late last week. The main item being that our grandson is arriving tomorrow to visit us at our townhouse in Ft. Myers for a week. Then our son and his wife arrive on the 6th (reunion date) to spend a week with us. That conflicted with the union—and thus, I won't be there.

Enclosed is my resume that gives you my professional history. In addition, Dorothy and I who have been married for 22 years (2nd time for both of us) have a combined family of 6 children stretching from Nairobi, Kenya; Boston; two in Michigan; and two in Colorado; and 11 grandchildren ranging in ages from sophomore in college to 4 weeks.

I enjoy outdoor sports with the main emphasis on doubles tennis — the legs can't take singles any more; and fishing in northern Michigan. However, my main hobby is flying our Beech Baron for Wings of Mercy. I'll do about 25 flights for them each year.

As I mentioned to you this fall in Denver, in the summer of 2005 I was diagnosed with Stage III colon cancer and had an 8" section of my large intestine with a malignant polyp removed. It was found via a routine colonoscopy. After 6 months of chemotherapy and another 6 months in a clinical study, I have been declared cancer free. **THUS, I STRONGLY URGE THOSE IN OUR AGE BRACKET WHO HAVE NOT GOTTEN ON A COLONOSCOPY ROUTINE TO DO SO.** I was told that I could have gone for another 4 or 5 years before the cancer would have effected how I felt—and at that time it could have been to late for a cure.

In short, good medicine along with lots of prayers by relatives and friends will allow me continued enjoyment of my family and friends and to attend a few more ACI conventions!

Pls extend to "the gang" my best wishes for a Happy New Year and extended good health.

All the best, Carl
